Lead Yourself First!

**This Powerful, Unique and Game-changing
3-Step Program of**

Consulting, Training and Coaching

Will Change Forever How You and Your Business Does Business!

Step 1

Consulting

Your business is my business...really!

Lead Yourself First! Will help you develop a powerful understanding that every employee, from top to bottom, is absolutely key to making the business profitable and productive; that every employee's first job is to *skillfully lead himself or herself*.

But, how?

I will study your business. I will learn the pluses and minuses of what works, what doesn't, and *will create solutions tailor-made for your business*.

I am professionally seasoned in People Dynamics.

I specialize in *Systems Thinking* to help YOUR People Dynamics work more profitably and productively.

Your employees will

- solve conflicts
- communicate effectively
- be a part of a fantastic, well-working team

Step 2

Training

Who's the Boss of Me? Me!
Your Business is a Living Organism.

Customized training programs of
partial to full-day workshops

Lead Yourself First!

is a powerful
Systems Thinking Training Program
to teach every employee how to lead and manage
himself or herself most effectively.

Systems Thinking is based on our physical biology.
It is what makes a “body” work well and excel.
It is how all “living systems” seek to
Grow, be Healthy, Prosperous and Productive.

We want to Grow toward Success!

But, what stops us? What gets in our way?
An ancient, millions of years old “curse and blessing” instinct called
Systemic Anxiety.

In these workshops, you and your employees will learn, master
and tame this powerful instinct of “anxiety” and use it to your
benefit and success.

The training is fast-paced, enjoyable, engaging and mind-changing!

You will learn how to *Lead Yourself First!*
Change forever how your business does business.

Step 3

Coaching

You are not alone...

Do you want a safe place to talk frankly, earnestly, honestly about the ups and downs of business leadership?
I will coach you to build and improve your skills to lead and manage yourself to achieve your desired success.

I offer in-person, telephonic or video coaching at your convenience.
Coaching is personal, private, confidential, and life-changing.

Individual, Team and Group
Coaching is offered in package formats
designed to support and guide you to deeply integrate
the training, skills and insights of
Lead Yourself First!
